

## HP Easy Printer Care Software

Version 2.5i — Compatible with Windows Vista®

HP Easy Printer Care Software helps you keep 2 to 20 HP LaserJet and Inkjet printers running smoothly—from your desktop.

HP Easy Printer Care Software 2.5i is your one-stop management solution optimized for 2 to 20 HP LaserJet and Inkjet printers and MFPs.<sup>1</sup> Perform multiple tasks with one tool: easily view the status of several devices, set up printer and supply alerts to your liking, generate basic usage reports, automatically troubleshoot printers, and reorder supplies from HP or your choice of resellers with the click of a button.

The intuitive graphical interface clearly indicates items that require your attention for each device. It provides proactive support alerts as well as supplies information and status, allowing you to view supplies details for all printers at a single glance and sort by printer or by urgency. Consolidated alerts provide support and supplies status for multiple devices in a single view. You can download the software at: [www.hp.com/go/epc](http://www.hp.com/go/epc).

### Experience effortless printer and supplies management

**Automatically add devices** The software automatically detects all supported HP LaserJet and Inkjet printers and MFPs in your devices folder, so you can start monitoring devices right away. You can also search your network for additional HP devices.

**Rely on instant, personalized support** To help you quickly resolve printing issues, HP Easy Printer Care has HP e-support links built in, providing you with relevant, personalized support by guiding you directly to the help you need. Once enabled, HP Proactive Support software runs in the background and intelligently detects and provides solutions via simple one click automation or step-by-step instructions. The software also suggests preventative maintenance against known issues, and notifies you of available updates.

**Get easy access and wide compatibility** Install the software with the driver installer CD provided with HP's latest devices or download it at [www.hp.com/go/epc](http://www.hp.com/go/epc) for free. The software is compatible with most HP LaserJet devices sold since 1999 and many HP Inkjet devices sold since 2003.

**Reorder supplies online with HP SureSupply<sup>2</sup>** Original HP supplies and printers exchange information to provide a snapshot of supplies status across all your HP printers and MFPs. Any supplies that are needed are then consolidated into a single order form that includes part numbers. One click transfers your information to HP SureSupply, where you can choose to buy from HP or a leading reseller.

### Protect your color investment

**Generate printer usage reports<sup>3</sup>** Monitor how your devices are used with reports that track printing by user, device, application, and color or black-and-white pages. With this valuable information, you can reduce expenses by detecting misuse and determine if your printers are properly deployed.

**Control color expenses** Controlling access to color devices is simple and easy. Turn off color printing with just a simple click of the mouse.<sup>3</sup>

<sup>1</sup> For a detailed printer compatibility matrix, visit: [www.hp.com/go/epc](http://www.hp.com/go/epc).

<sup>2</sup> Program features and availability may vary by country. For more information, visit [www.hp.com/learn/suresupply](http://www.hp.com/learn/suresupply).

<sup>3</sup> Available on select HP LaserJet printers. See the printer compatibility matrix at: [www.hp.com/go/epc](http://www.hp.com/go/epc).

# Simplify your output environment with HP's family of printer management tools.

HP Easy Printer Care 2.5i is only one of a family of HP device management solutions each tailored for specific user needs. HP Easy Printer Care 2.5i is designed for small to medium output environments without a dedicated IT department, making printer management and supplies reordering trouble-free.

HP's family of powerful, easy-to-use device management tools is designed to help businesses of all sizes reduce support costs and maximize productivity by making printer configuration, monitoring, supplies ordering, troubleshooting, and updating as simple and efficient as possible.

HP offers a printer management tool suited for every environment:

**HP Easy Printer Care is best suited for small to medium output environments without a dedicated IT department**
